

Now a kind of business has started in remote areas where animals and birds are kept on the road so that they have accidents and can demand huge amount of money from the driver or the owner. It causes considerable inconvenience to people's movement but constantly such cases have increased a lot. In this way, the danger of people's lives also increases due to leaving hen goat cow buffalo in the road. People have to meet with accidents while trying to save some kind of animal. If the animal is to be reared, then it should be tied at home or left in a field to raise it, but if the animals are left on the road like this, people are harmed in many ways and many people have had accidents and lost their lives due to this. So my humble request to the administration is that people do not keep

1

administration is that people do not keep poultry or any kind of animals on the roads and if they are harmed in a car accident, at least the driver or the owner should not be harassed in this way. For that the administration authorities should take the necessary role and if there is a need for announcement on the mic, so that the administration is done with the general public in mind
